Americans for America.

The Democratic newspapers assert with "ghoulish glee" that in the Samoan business Mr. Blaine followed the general line marked out by Mr. Bayard. Suppose this to be true—what of it?

If Mr. Bayard was right was Mr. Blaine to seek an inferior mind's satisfaction by going wrong just to get a crack at his predecessor? Or is the idea to laud Mr. Bayard by showing that the brainy Blaine thought that in at least one instance Mr. Bayard's lines were well laid?

Would it not be fairer to give to Mr. Bayard and Mr. Blaine whatever credit may belong to each? No American should desire to take anything from either of them. When the United States is in controversy with another power all Americans should stand to gether on the American side.

Much of this uncertainty will be removed to the further disadvantage of the cut nail if the men who manage that industry much longer reituse to be guided by the cold philosophy of the situation. The cut nail of steel is as near perfection as a nail can be brought. No nail is more sightly and none equals it in holding power. But consumers are not satisfied with the mere weight of the keg of nails they count the number of nails in the keg.

It is at this point that the cut nail must meet the wire nail and pass the wire nail if it can. This the cut nail can do. It is for the manufacturers to give
